| Remarks<br>As per request checked the shock with analyser and it was working. Found no battery backup and need replacement of battery pack. Performed hardware, knob panel and paddle interface tests. Checked and found that the unit is working in good condition.                                                                                                                                                                                                                                                                                                                                                                                                             |                                |  |                                                                                                                                                                                                                                                                                                  |              |                                              |
